2024 Change List

	Section	Change	Notes	Included FUR	Jira
1	**Version 7.1 updates**				
2	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235880810054#3.9.7.1-Enhanced-Viewing-Angle-Requirements	Enhanced Viewing Angle changes to Off and is grayed out with 4K1K120 content: DLG enabled, drives 2 horizontal lines (vertical resolution) at the same time	For VQD50 only with DLG.		MTV-4483
3	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235874421035#4.7-Lip-Sync	Corrected range to 0 - 200 msec (was 400)	spec clean up - this matches 10 msec increase 0 - 20	post FUR7.1	N/A
4	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.1-HDMI-Mode	Compabtility (HDMI 1.4) for HDMI mode detected • If signal is invalid • If HDCP i= 1.x • If DVI with TMDS < 185 MHz • If TDMS clock > 40 MHz (image is 800x600, 480P)	Spec clean up		N/A
5	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235874421201#10.4.1-Automatic-Time	Deleted if network not connected, time acquired from the scanned tuner.	Spec update Not implemented, very low use case.		MTV-3556
6	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235874421201#10.4.3.1-Daylight-Saving-Time-Requirements	Deleted #6 support of time from scanned tuner if DST is On/Off and Automatic Time is unchecked.	Spec update Not implemented, very low use case.		MTV-3556
7	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235874421201#10.5.2.1-Hide-Requirements	Hide can be checked for any HDMI port but if a device is connected, the HDMI port remains visible in the input list.			
8	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.7.1.4-Input-Switching-to-No-Signal-Messaging	If VIZIO Home is default for Input at Power On, switch to input with no sync displays notification to "Return to Home" is default. No notification for Antenna integrated with WatchFree+.	Spec clean up	FUR7.1	TVPF-51814
9	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.7.4.1-Power-Indicator-Requirements	Blank Screen is invoked, then the LED for the Power Indicator is turned on to dim even if Off.	spec clean		N/a
10	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.1-Restart-TV	Deleted Restart TV does not apply if no network connection.	spec update - matches behavior		TVPF-51808
11	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421415/15+Remote+Keys#15.8.3-Long-MUTE-key-Launches-Blank-Screen	A long 2 second press of MUTE key launches Blank Screen.	Spec clean up. Reinstated support for Blank Screen including MUTE key.		
12	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421693/19+OOBE#19.2-Bluetooth-Remote-Pairing	Corrected Tip text to "Press and hold the microphone button to speak command such as "Open WatchFree"	spec clean up	post FUR7.1	MTV-4571 MTV-4572 MTV-4573
13	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421693/19+OOBE#19.7-Terms-%26-Conditions	Removed VIZIO Account Terms of Use	spec clean up	post FUR7.1	MTV-4574
14					
15	**Version 7.1**	**Final MP Released**	**Sept 10, 2024**		

16	2 All Settings Menu	If Loki has not received values from DTV service the first time leave setting blank (not a 0).	This applies to Quick menu and All settings.	spec clean up	
17	2 All Settings Menu	Sidebar timeout timer is paused during if Talk Back is voicing, restarts after Talk Back is quiet.		FUR7.1 post	TVPF-50161 TVPF-50180
18	2 All Settings Menu	CC notifications and closed captions do not take down TV settings.		spec clean up	TVPF-50485
19	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.1.2.1-Picture-Mode-Banks-HDR-Content	For picture mode banks, added SOC and year for HDR support.	Spec clean up, moved from https://vizio.atlassian.net/wiki/x/Fgs26zY	spec clean up	
20	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.6.2.1-Dark-Detail-Requirements	Removed reference to chip support for DVI no support of Dark Detail.		spec clean up	
21	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.6.2-Dark-Detail	Dark Detail changed to Enabled/Disabled instead of On/Off.	Dolby Vision requirement for settings.	FUR7.1	MTV-3324
22	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.7.3.1-Clear-Action-Requirements-(VQD-skus-only)	Added Clear action does is not supported and grayed out if 24 hz content. For panel at 60 Hz or 120 Hz then Clear Action activates overdrive for all signal sources and added by boosting the backlight LED current while reducing the duty cycle. The image sharpens by essentially providing a shorter strobe pulse while maintaining the same luminance level.	Clarified in notes requirements for DMR.	spec clean up	
23	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.9.6.1-Aspect-Ratio-Requirements	For source that only support Normal Aspect ratio, the setting is changed to normal, grayed out and not selectable.	clarification	spec clean up	n/a
24	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235880810054#3.9.7.1-Enhanced-Viewing-Angle-Requirements	Added VQD50M-0809 for Enhanced Viewing Angle support		FUR7.1	MFFT-2663
25	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.10.0-Color-Calibration-requirements	Entry of a combination of keys appends Color Calibration and Gamma in the Picture menu.	Key combo defined in VIZIO Test menu.	FUR7.1	MTV-2838
26	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.10.1-Color-Tuner	From Color tuner deleted ISF calibrator region.	CalMAN required the ISF calibrator region - never supported.	FUR7.1	
27	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.1-Audio-Out	Audio out is TV speakers or if discovered, the connected Soundbar.	TV speakers setting replaced by SoundbarName	spec clean up	
28	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.1-Audio-Out	Audio out for eARC device with CEC disabled has no volume control.	Clarifying current behavior: spec clean up.	spec clean up	MVV-14822
29	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.1.2.2-ARC%2FeARC-Sound-Bar-Volume-Control-(VIZIO-and-non-VIZIO)	A change of volume with VIZIO Karaoke soundbar displays simplified name: - VIZIO MicMe SB		FUR7.1	MFFT-1691

30	5 HDMI and Gaming	HDMI & Gaming available for all inputs but Gaming/PC Mode, Game HDR and HDMI Settings are grayed for all inputs except HDMI.	spec clean up	FUR7.1	
31	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235875008523#5.1.1-Gaming%2FPC-Mode-Requirements	Gaming/P mode is only for HDMI. Added the setting is grayed out for all inputs except HDMI.		FUR7.1	TVPF-47062
32	https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235875008523#5.1.1-Gaming%2FPC-Mode-Requirements https://vizio.atlassian.net/wiki/spaces/PM/pages/edit-v2/235875008523#5.1.5-Game%2FPC-Mode-if-HDMI-Forum-VRR-detected	Removed references to Game picture Mode (not supported)		spec clean up	
33	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.2.1--4%3A4%3A4-Color-Space-Requirements-(4K%2FVQD-skus-only)	If source is YCbCr 444 and Color Space is On then Color remains adjustable.		spec clean up	
34	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.6-Device-Discovery	FIND		FUR7.1	FIND
35	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.7-Picture-Size-and-Position	Pic size & position applies only to HDMI inputs.	No longer applies to OTA with inclusion to WatchFree+.	spec clean up	
36	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.4-HDMI-Device-Info-(Not-for-VHD)	Changed name from Gaming Info to HDMI Device Info.	Device connected to HDMI may be a BD player or other device, not a game	FUR7.1	FIND
37	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421251/5.4.4+CEC+Control#5.4.4.3.3-System-Standby	Clarified if Input at Power On is Last Input Used then at power on a CEC power command issued but if VIZIO Home CEC device is not powered on.		spec clean up	
38	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.1-My-Networks	Ethernets or Not Connected under My Networks is grayed out, not selectable.	clarify spec	spec clean up	n/a
39	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.2-List-of-Wi-Fi-Networks	• Updated name of section to "List of Wi-Fi Networks" • Deleted "Wi-Fi Networks" header	This is a description of the 4 AP that follow the connected Wi-Fi network.	FUR7.1	MTV-2720
40	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.3.1-Wi-Fi-Password-Entry	After selection of network with Open Enhanced or None the Connect button is immediately available.			MVV-19465
41	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.4-Network-Information	• Wi-Fi signal strength moved below WLAN MAC. • Internet Download Speed is TBD • Connection lost or never connected, WIFI Signal Strength display Not Connected	Spec clean up - align with Network Info in System Info.	FUR7.1	n/a n/a TVPF-42342
42	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.4-Network-Information #15	Wi-Fi Signal Strength: Not connected is -90 dBm or lower or no connection.	Engineering added threshold of -90 dBm.	spec clean up	

43	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874420927/7+Bluetooth+and+Remote#7.1.3-Voice-Remote-Maintenance	Updated maintenance list from 24 to 22 paired devices.	QA tested and 22 devices supported but not 24.	FUR7.1	MFFT-1023 NFT-184
44	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421122/8+Antenna+Channels#8.1.1-Channel-Scan-Requirements	Changed Channel scan time for Find More Channels to 7 minutes from 4.	TVs have never met the 4 minute requirement.	FUR7.1	FIND

121	https://vizio.atlassian.net/wiki/spaces/USS/pages/edit-v2/235874421693#19.5-TV-Location-to-Name-TV	For name TV delete secondary bedroom, add guest bedroom.		spec clean up	
122	https://vizio.atlassian.net/wiki/spaces/USS/pages/edit-v2/235874421693#19.6-VIZIO-Account-Setup	VIZIO account setup is required to complete OOBE for Amtrak TVs: Skip button removed. Back out to exit OOBE but Skip button included for pre-Amtrak skus and proceeds to TOS.		spec clean up	
123	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421693/19+OOBE#19.7-Terms-%26-Conditions	TOS only displays if pre-Amtrak skus skip VIZIO account setup.	For Amtrak skus TOS is included in VIZIO Account setup.	spec clean up	
124	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421693/19+OOBE#19.7-Terms-%26-Conditions	For TOS if Decline selected then a notification displays with Back and Decline buttons. Select Decline exits OOBE to HDMI-1.	Spec clean up	FUR7.1	
125	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421693/19+OOBE#19.7.2-Activity-Data	For Activity Data if Decline selected then a notification displays with Back and Decline buttons. Select Decline exits OOBE to HDMI-1.		FUR7.1	MVV-19463
126	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421693/19+OOBE#19.9-Getting-Started-Screen	Added for Amtrak skus the only condition for exiting to HDMI-1 is if WiFi is setup later.		spec clean up	

Version 7.1

	Section	Change	Notes	Jira
1	**Version 7.1**	**Feature List Released March 21, 2024**		
2	https://vizio.atlassian.net/wiki/spaces/PM/pages/2358808100543+Picture#3.1.3-Picture-Modes-Preset-and-Custom	A maximum of 4 custom picture modes supported.	Spec clean up to align with updated requirements.	JIRA
3	https://vizio.atlassian.net/wiki/spaces/PM/pages/2358808100543+Picture#3.5.2-Clarity	Clarity submenu header is grayed out and not selectable with Game/PC Mode enabled.	All settings under Clarity are not selectable with Game/PC mode.	
4	https://vizio.atlassian.net/wiki/spaces/PM/pages/2358808100543+Picture#3.5.3-Motion-Control-(not-for-VHD%2C-VFD%2C-4K%2C-VQD-skus)	Motion Control submenu header is grayed out and not selectable with Game/PC Mode enabled. Film Mode moved out of Motion Control to Advanced	All settings under motion Control are not selectable with Game/PC mode.	
5	https://vizio.atlassian.net/wiki/spaces/PM/pages/2358808100543+Picture#3.5.4-Film-Mode	Film Mode moved to preceding Active Pixel Tuning in Advanced Picture	Majority of skus do not support MEMC or motion control settings.	

6	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.5.11-Picture-Mode-Edit	Either Delete Picture mode for custom picture modes, or Reset Picture mode for preset picture modes displays but never both.		
7	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.5.11.1-Save-Picture-Mode	To save picture mode includes maximum of 4 customer pictures modes supported.	Spec clean up	
8	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.5.11.3-Delete-Picture-Mode	Added Delete Picture Mode and a deleted picture mode changes input to Bright pic mode.	Omitted in error - spec clean up.	
9	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.5.11.2-Reset-Picture-Mode https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.5.11.3-Delete-Picture-Mode	Either Delete Picture mode for custom picture modes, or Reset Picture mode for preset picture modes displays but never both.		
10	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.6.5-Calibration-Tests	Added the settings for the calibration tests.		
11	https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.6.5.0-Calibration-Tests-Requirements	When a calibration test is selected from the mobile app, the test displays on the TV.		MTV-828
12	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.1-Audio-Out	Optical selected then Audio menu reduced to 2 settings: • Audio Out • Digital Audio out	All other audio settings apply only to TV speakers.	
13	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.8-Digital-Audio-Out	Deleted automatic change of digital audio out to PCM if TTS is enabled and TV speakers are off.	TTS can be heard from sound bar for Auto, PCM and digital settings of Digital Audio out.	NTD-2973
14	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421035/4+Audio#4.8.1-Digital-Audio-Out-Requirements	Deleted Automatic switch of Digital Audio Out to Digital	Feature removed due to poor performance issues.	
15	5 HDMI and Gaming	Clarified that HDMI and Gaming applies to all inputs for support of gaming functions.	App and WatchFree+ based games are supported.	
16	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.0.1--Game-Bar	Added Game Bar support.		MVV-14086
17	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.1-Gaming-Input-Device-Name-(reference)	Gaming Input Device Name moved to Current Gaming Info	Spec clean up	
18	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.2.1-Gaming%2FPC-Mode-Requirements	Included Dark Detail with other picture settings that are grayed out to reduce throughput delay with Gaming/PC Mode.		
19	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.1.1-Gaming%2FPC-Mode-Requirements	Added Global Dimming to picture settings set to off, grayed out and not available with Gaming PC/Mode enabled.	As per Product HW team request	MTV-2170
20	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.2.5.7-Game%2FPC-Mode-(HD-skus-only)	Moved Game Low latency for HD and renamed Game/PC mode from Picture.		
21	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.1-Game-HDR-Requirements	Gray out Game HDR if source is VIZIO HOME or WatchFree+		

22	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.4-Current-Gaming-Mode-(Not-for-VHD)	Renamed Current Gaming Mode to Gaming Info to align with the 2024 menu tree. To Gaming Info added as first in list Input: "Gaming Input Device Name"	Spec clean up	
23	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.4.1-Gaming-Device-Name-for-Input	Moved requirements of Gaming Input Device Name from top of the menu.		
24	https://vizio.atlassian.net/wiki/spaces/PM/pages/235875008523/5+HDMI+and+Gaming#5.3.5-One-Touch-Play	One Touch Play default is disabled.	spec clean up	MTV-2517
25	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.1.1-Ethernet-Connected	No Ethernet for 2024 skus: VHD, VFD, or V4K.	Ethernet not planned for future skus.	
26	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.1.2-Wi-Fi-Network-Connected	For Wi-Fi network currently connected add "Checking" for unknown status.		
27	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421102/6+Network#6.3-More-Wi-Fi-Networks	Renamed "More Available Networks" to "More Wi-Fi Networks"	This is in code and more consistent with other Network settings.	MTV-2530
28	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874420927/7+Bluetooth+and+Remote#7.2-Headphones-Requirements	Volume control supported for BT headphones. No other functions required.	Pause may work for some devices but not a requirement.	JIRA
29	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421122/8+Antenna+Channels#8.1.1-Channel-Scan-Requirements	Added voice command included in prohibited functions during antenna scan.		TVPF-39341
30	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421150/9+Accessibility#9.1.0-Captions-Requirements #10	When the Digital Style settings are changed, an example of the appearance of the captions is displayed on the TV.	Long time requirement missed when moved to confluence.	VHAL-2371
31	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421150/9+Accessibility#9.3.1-Talk-Back-Requirements	Deleted automatic change of digital audio out to PCM if TTS is enabled and TV speakers are off.	TTS can be heard from sound bar for Auto, PCM and digital settings of Digital Audio out.	NTD-2973
32	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.2-TV-Information	To System Info added watch free, home and avod at the end of TV	Engineering ? added versions.	
33	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.2-TV-Information	Updated System Info for Audio In to display Dolby Atmos if Dolby Atmos comes into TV and is heard as Dolby Atmos from a soundbar Deleted Stereo, added AAC.	This is different from Input Change Control which displays the Dolby Audio logo.	MTV-2220
34	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.5-Manage-Input-List	Correct Manage Input List displays Rename and Hide.	Spec clean up to align with menu tree.	
35	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.5.1-Rename	Added selection of Rename displays a predefined list of names followed by Custom. Selecting Custom displays a keyboard.		
36	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.5.1.1-Input-Name-requirements	Added requirements for HDMI naming from CEC, HDMI SPDIF or Rename.		
37	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.8.1-System-PIN-Code	Corrected names for submenu header to System PIN code and settings to Set System PIN and Reset System PIN.	To align with correct names in 2024 menu tree.	

38	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.8.3-WatchFree%2B	To Parental Controls added WatchFree+ which deep links to WatchFree+ left nav parental controls	Included in 2024 menu tree but missed at document creation.	
39	10.9	Reset to Factory Settings deleted and moved to 11. Support.	Improved UX/UI experience.	
40	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.9.2-Launch-of-Demo-Mode	Initial OOBE, AC/DC power cycle prior to 15 minute elapses or during 15 second demo timer/notification then demo mode disabled. At next power on restart 15 minute timer followed by 15 second timer/notification.	Spec clean up during LOKI implementation.	N/A
41	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421201/10+System#10.9.11-Exit-Demo-Mode	During demo mode timer/notification to exit demo mode added press • BACK key • Front panel key (short press) • deleted CC, Star, Channel keys	Engineering requested to simplify and future proof demo mode design.	TVPF-39414
42	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.3.1-Silent-Update	Added TV does not power on after completion of a silent update.		NTD-2775
43	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.2-Support-Code	To Support Code page added sound bar status.		
44	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.4-Reset-to-Factory-Settings	Moved Reset to Factory Settings to Support from System	Improved UX/UI experience.	
45	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.4.1-Reset-to-Factory-Settings-Button-Requirements #2	Reset apps includes reset of native apps.	Per engineering (Ram) request.	NTD-2741
46	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.5-TV-Speaker-Test	Added TV Speaker Test as per 2024 menu tree.		
47	https://vizio.atlassian.net/wiki/spaces/PM/pages/235874421332/11+Support#11.6-User-Manual	If TV is offline, user manual displays offline galaxy page with a notification.	Auto switch to VIZIO Home galaxy page confusing without notification.	
48	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421375/13+VIZIO+Test+Menu#13.0-Test-menu	Special key entry to display Test menu no longer supports PLAY key.	Remotes for 2024 TV's going forward do not include PLAY key.	MFFT-1304
49	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421375/13+VIZIO+Test+Menu#13.9-Color-Calibration	Included Color Calibration in the VIZIO Test menu.	Display the hidden Color Calibration menu in full as per https://vizio.atlassian.net/wiki/spaces/PM/pages/235880810054/3+Picture#3.6-Color-Calibration-(Only-supported-for-VIZIO-mobile-app)	
50	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421415/15+Remotes#15.5.1--MENU-key-Launches-Game-Bar	Game connected to HDMI port then MENU key displays Game Bar.	Game Bar replaces Quick menu.	
51	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421526/16+TV+Control#16.2.2.4-Bluetooth-Remote-Low-Battery-Notification	Bluetooth low battery notification displays at 20% battery.	Long time requirement missed in spec.	
52	https://vizio.atlassian.net/wiki/spaces/USS/pages/235874421526/16+TV+Control#16.1.5.4-Audio-Type-for-Input-Change-Control-including-DTS	Input Change Control has no audio listed (blank) if audio is NOT trademarked for Dolby or DTS. Examples are audio in from PCM and AAC.	Removed mono and stereo and all other audio types for Input Change Control only to meet Dolby cert.	NTV-89
